

This **pop-up shop** is planned to make its first appearance in the St David's Dewi Sant shopping centre in Cardiff. Parents will pass their time in a 'MollyGarden Café', framed by fabrics printed with a meadow image under an agate sky and a band of pure blue. Cloudeating strizzate hang from the ceiling, and along one side guinea pigs keep an indoor lawn neatly mown. Cacti grow in a raised pot, sweet peas grow up a conical steel frame, and a MollyColumn has a circular goldfish

pond at its base. The living plants are complemented by inflatable flowers – fragments of a 'bouncy meadow' to come.

Children will enjoy a series of activities based on our school roadshow, and leave with a tee-shirt they design with the MollyApp. They can draw flowers in front of a large meadow picture and penguins in the igloo, make an American Indian shaker in the tepee, and listen to Molly reading stories in her home.
